

AIR CIRCULATING BASKET FANS

DESIGNED FOR A MORE EVEN
TEMPERATURE MIXTURE

- › Helps eliminate condensation
- › Assists with reducing heat stress
- › Automatic thermal overload protection

AIR CIRCULATING BASKET FANS

Chore-Time's Basket Fans help hog producers supplement their air circulation all year long. The energy-efficient ball bearing motors offer many years of trouble- and stress-free operation.

Fan and Shutter Performance

- > Mixes air for more even temperatures.
- > Automatic thermal overload protection.
- > Helps to eliminate condensation.

Exceptional Materials

- > Direct-drive motor.
- > Sealed ball bearing.
- > 1/10-horsepower direct drive motor.
- > "L"-shaped ceiling mount bracket provided with fan.
- > Fan guard meets OSHA regulations.

Durability

- > Polyvinyl-coated heavy-duty guard for superior corrosion resistance.
- > Two-year warranty on motors.

Adaptability

- > Helps to supplement year-round air circulation.
- > Assists with reducing heat stress.
- > Single- or variable-speed options.

20-inch (508-mm) diameter basket fan with ceiling mount bracket.

Basket Fan Specifications Chart

Part No.	Diameter	Motor	Electricity
51702	20 inch (508 mm)	1/10 HP 1725 RPM	115/230V 1 Ph
50576	24 inch (610 mm)	1/2 HP 1725 RPM	115V 1 Ph
50576-230	24 inch (610 mm)	1/2 HP 1725 RPM	230V 1 Ph
